Republic Sakha (Yakutia) women's health

Pavlova T.Yu. – PhD, Health care ministry, RS (Y), the chief obstetrician-gynecologist, senior reseacher, YSC CMP SB RAMS, tatuanapavl@mail.ru;

Douglas N. I. – MD, MI SVFU, lecturer.

Maternal and child health care - a special branch of health care as it is largely determines the future of the nation, therefore, is an important concern of the state. Health problems of women of reproductive age remain constant in importance. Maternal and perinatal mortality is a major integrated indicator of not only the services of maternal and child health and health care in general, but social well-being of society.
